Introduction to Brad & Maria Davis:

We are life-long Chicagoans who have spent the last 29 years working in the Windy City and living in Brookfield, IL. We have two adult sons and two sweet daughters-in-law, as well as two canine "daughters." We met at a mortgage servicing company 34 years ago and, since then, have had a wonderful life with family, traveling, and enjoying music together. Maria is now retired, and Brad hopes to join in on the fun within a couple of years. Having rented a home in Saddlebrooke the past four years, we decided that Arizona was the place we'd like to live and experience warm winters while pondering our previous existence in the freezing January cold of the Midwest.

Brad's interests include playing guitar and piano, studying the stars, and reading non-fiction. Maria's interests include any kind of aerobic workouts, reading, playing piano, learning to draw and paint in acrylics.

We are excited to meet more of our neighbors in the near future!
